Walking excursion to and from Venue	Sun Burn, Heatstroke, dehydration, Extreme hot weather etc.	Extreme	Should the temperature become too hot to return to OOSH by foot, alternative arrangements will be made to ensure the safety of each child. Parents will be contacted and notified immediately should there be changes to the daily programs travel arrangements / pickup location.	Educators	Temperature to be assessed prior to leaving on excursion for a decision / alternate plans to be made	Low
Parkour	Children leaving the activity - Roller Door open	Extreme	The roller door at the Apeiron Parkour may be open to increase airflow in warm area All children will be aware of this risk as part of instructions before activity begins. Apeiron staff have a metal fence barrier to place in front to stop children going outside unsupervised. Educators will be closely supervising children to ensure all children remain inside of the building.	Educators and Apeiron Staff	Instruction before commencing activity and supervision throughout the activity	High

Activity	Hazard identified	Risk assessment (use Matrix)	Elimination/control measures	Who	When	Residual Risk Rating
Parkour	Children performing movements/stunts beyond their ability - resulting in high risk of injury	High	Apeiron instructors will speak to all children prior to activity about the importance of performing moves within their ability and the possible dangers of not adhering to this. Children who attempt to perform moves above their ability will sit out of activities as it is a high risk of serious injury. Instructors will talk about rules, centre boundaries and other important information prior to any activities.	Apeiron Staff	Prior to activity	High
Parkour	Slips/Falls	High	Children must wear appropriate footwear (enclosed shoes) during the activity as open ended shoes have less grip and are more prone to slipping, causing injury. Runners or sandals are the best choice of footwear for the excursion.	Children/Parents	At all times at Apeiron Parkour	High

Activity	Hazard identified	Risk assessment (use Matrix)	Elimination/control measures	Who	When	Residual Risk Rating
Parkour	Contact injuries jumping/moving from boxes	High	Children will be doing parkour and jumping from box to box which carries a high risk of contact injury such as bruises/sprains and fractures. The children will be split into groups based on age and the activity will be age or ability appropriate each group. Children who are younger and less confident with their ability will have shorter gaps between boxes, smaller boxes and more supervision to minimise the risk of injury. All children will be heavily watched by instructors to gauge ability, to ensure they are not over performing a skill that is too difficult for their ability. Eg. Keeping a close eye on Kindergarten children who may not be comfortable jumping from box to box, who can step between boxes instead. No flips/excessive jumps will be allowed by any children however can be safely demonstrated by professional instructors for children's enjoyment.	All educators, Apeiron Staff	Throughout activity	
Parkour	Oversensitivity to noise/activity for children with high needs such as ASD.	Moderate	Children who are susceptible to anxiety or sensitive to noise will be made aware of the ability to leave the area to calm down. Parkour centre has a quiet upstairs activity room where children can be moved to calm down when upset. This is particularly useful for children who have high needs such as ASD. Provides a private space for child to quietly relax while supervised by an educator(s).	Educators and children	Prior to excursion and anytime during excursion	Low

Activity	Hazard identified	Risk assessment (use Matrix)	Elimination/control measures	Who	When	Residual Risk Rating
General	Child Protection	High	Children will never be left alone with members of the public without supervision. All Educators hold WWCC as do venue staff, and Bus driver	Educators	During Excursion	Low
